

## **Patient Centered Primary Care Collaborative**

The Patient Centered Primary Care Collaborative is a coalition of major employers, consumer groups, organizations representing primary care physicians, and other stakeholders who have joined to advance the patient centered medical home. The Collaborative believes that, if implemented, the patient centered medical home will improve the health of patients and the health care delivery system.

In order to accomplish our goal, employers, consumers, physicians and payers have agreed that it is essential to support a better model of compensating physicians. Compensation under the Patient Centered Medical Home model would incorporate enhanced access and communication, improve coordination of care, expand administrative and quality innovations and promote active patient and family involvement.

The Patient Centered Medical Home model will also engage patients and their families in positive ongoing relationships with their physicians. Further, the Patient Centered Medical Home will improve the quality of care delivered and help control the unsustainable rising costs of healthcare for both individuals and plan-sponsors.

### **The members of the Collaborative are:**

American Academy of Family  
Physicians

The American Academy of  
Pediatrics

American College of Physicians

American Health Quality  
Association

American Osteopathic Association

Bridges To Excellence

The Center for Excellence in  
Primary Care

The ERISA Industry Committee

Exelon Corp

General Motors

HR Policy Association

IBM

National Association of  
Community Health Centers

National Business Group on  
Health

Walgreens Health Initiatives

Wyeth
