

EXCLUSIVE INVITATION-ONLY EVENT

What Happens Now? The 2020 Election & Its Impact on Large Employer Benefit Plans

November 5, 2020 | 2PM - 3:30PM ET

ERIC

THE ERISA
INDUSTRY COMMITTEE

Shaping benefit policies before they shape you.

Only ERIC provides the combination of intel, expertise, collaboration, and lobbying that exclusively serves the interests of large employers who provide health, retirement, and compensation benefits to their nationwide workforce.

Join us as our policy experts discuss how the election results may impact large plan sponsors and their employees. We will explore what federal and state lawmakers may consider that could make it easier – or harder and more costly – for large employers to provide health, retirement, compensation, paid leave, or other benefits to their nationwide workforces. What will happen with the ACA, telehealth, mandatory employer retirement contributions, emergency savings plans, COVID-19 relief, and other policies ERIC is shaping? This is an exclusive opportunity, normally reserved for members only, to hear about federal, state, and local public policies important to large national employers.

WHO IS INVITED TO ATTEND

Benefits executives in design and administration, in-house legal counsel, and government relations leaders (federal, state, or local) at large national employers.

REQUEST YOUR INVITATION
